RCI Industries & Technologies Ltd

RCI Industries & Technologies Limited is an approx.. 1200 Crores diversified Conglomerate incorporated under the provision of Companies Act, and listed with BSE(Bombay stock exchange) also. RCI Industries & Technologies Limited is manufacturer of copper wires and art wares/handicraft. Since incorporated in the year 1992, the company under the guidance of experienced promoters has well adapted to changing economic environment. It has grown from strength to strength under the dynamic leadership of our promoters and dedicated employees. The combined experience has propelled the company to source and cater to the specific needs of various customers. RCI Industries & Technologies Limited, through its 100% Export Oriented Unit, RCI Copper is engaged in the business of manufacturing and exports of Copper wires, Copper cables etc. These are manufactured using the most advanced technology and high graded raw material. A value driven corporate, RCI group has further consolidated its position in the last five years into diversified sectors like trading of all types of ferrous and non – ferrous metals and products. We are one of the leading companies engaged in the sphere of manufacturing and trading of items such as Copper Wires, Copper Scrap, Steel Scrap, Copper Cable, Tin Lead Solder (in wire-strips-sticks form), Lead Free Tin Solder, Tin Silver Alloy Solder, Copper & Brass Handicraft Items & Oil products.

The Company is progressing rapidly under the guidance of Mentor & Managing Director, Mr. Rajeev Gupta. His business acumen, market knowledge, leadership skills & extensive experience of metal trading has enable the company to gain a successful position in the market. The company is catering to customers all over the world especially African countries, Russia & Middle East. With experience of more than 25 years in the sphere of manufacturing and trading of these items, the company understands current market trends and demands. Recently, the company has incorporated a wholly owned subsidiary in India named RCI Skills & Social Development Private Limited which is an initiative towards Corporate Social Responsibility.

Highlights

HOT MILL(AUSTRALIA)	HARDNESS TESTING MACHINE	SPECTROMETER(GERMANY)
COLD MILL(U.K.)	FOIL UTS TESTING MACHINE	*COLD MILL 20HI Z MILL
BRIGHT ANNEALING FURNACE (U.K.)	LAB CHEMICAL ELECTRO ANALYSER	*NITROGEN PLANT
COLD MILL4HI INTERMEDIATE (U.K)	ETP PLANT	*HORIZONTAL CONTINOUS CASTING LINE
VACCUM ANNEALING FURNACE	STP PLANT	*FINISH 4HI MILL
COLD MILL 20HI-Z-MILL(U.K)	AIR POLLUTION CONTROLLER	*BLISS MILL 4HI
STRIP FLATTENING MACHINE	SLITTING MACHINE(U.S.)	*BELL ANNEALING FURNACE

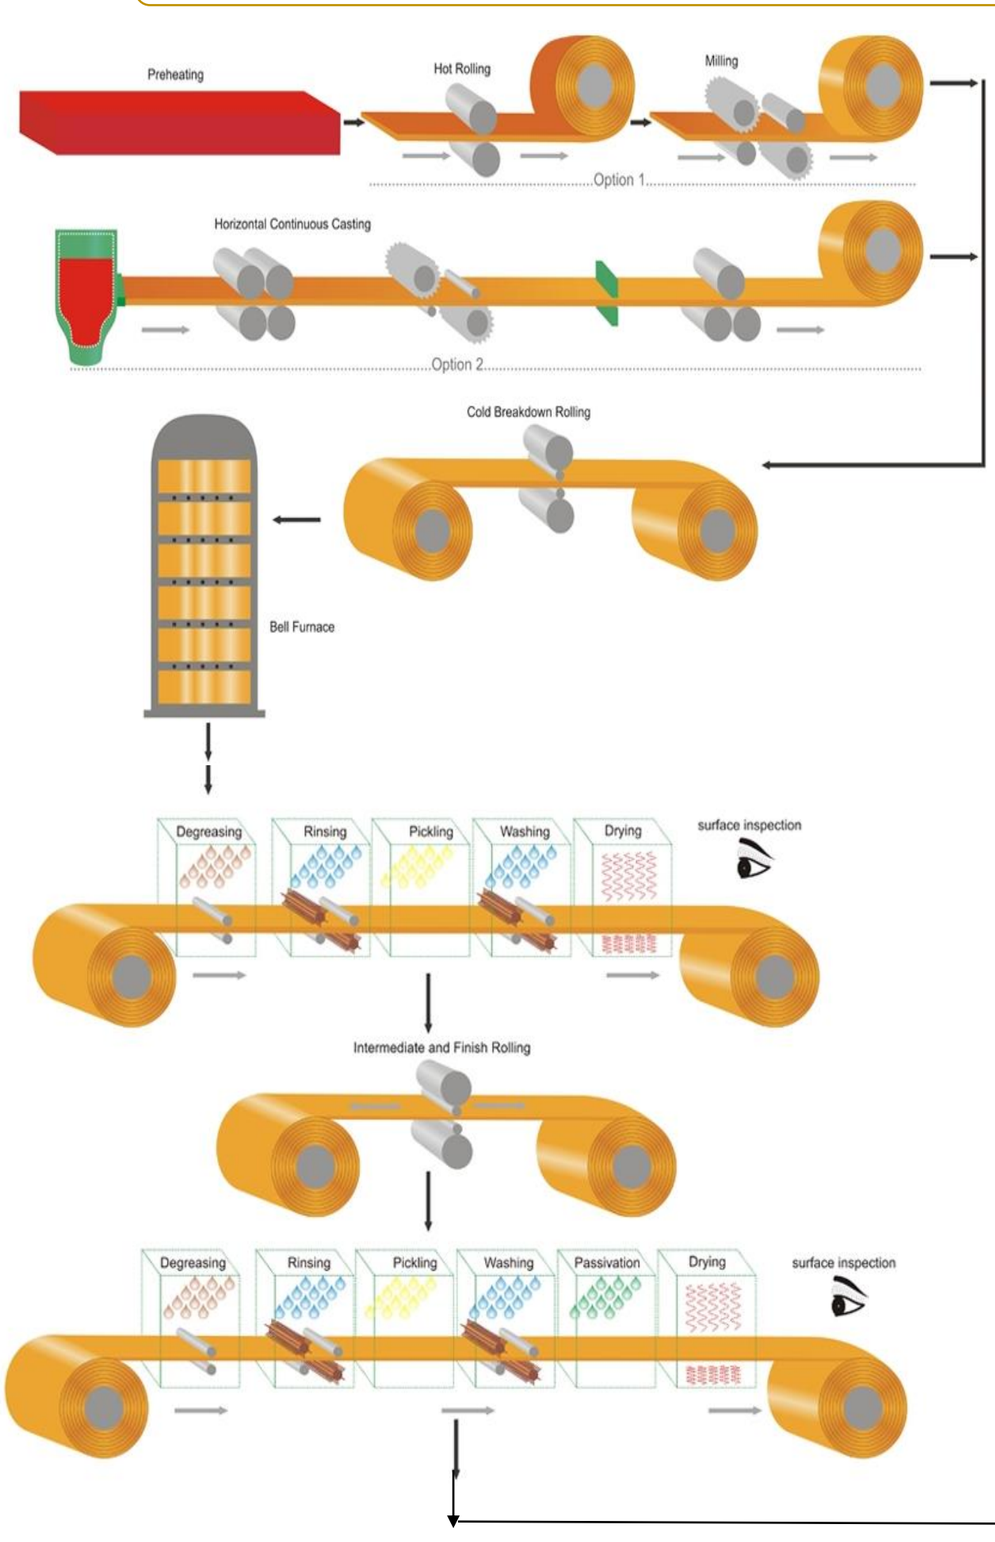
MOST UPGRADED QUALITY CONTROL

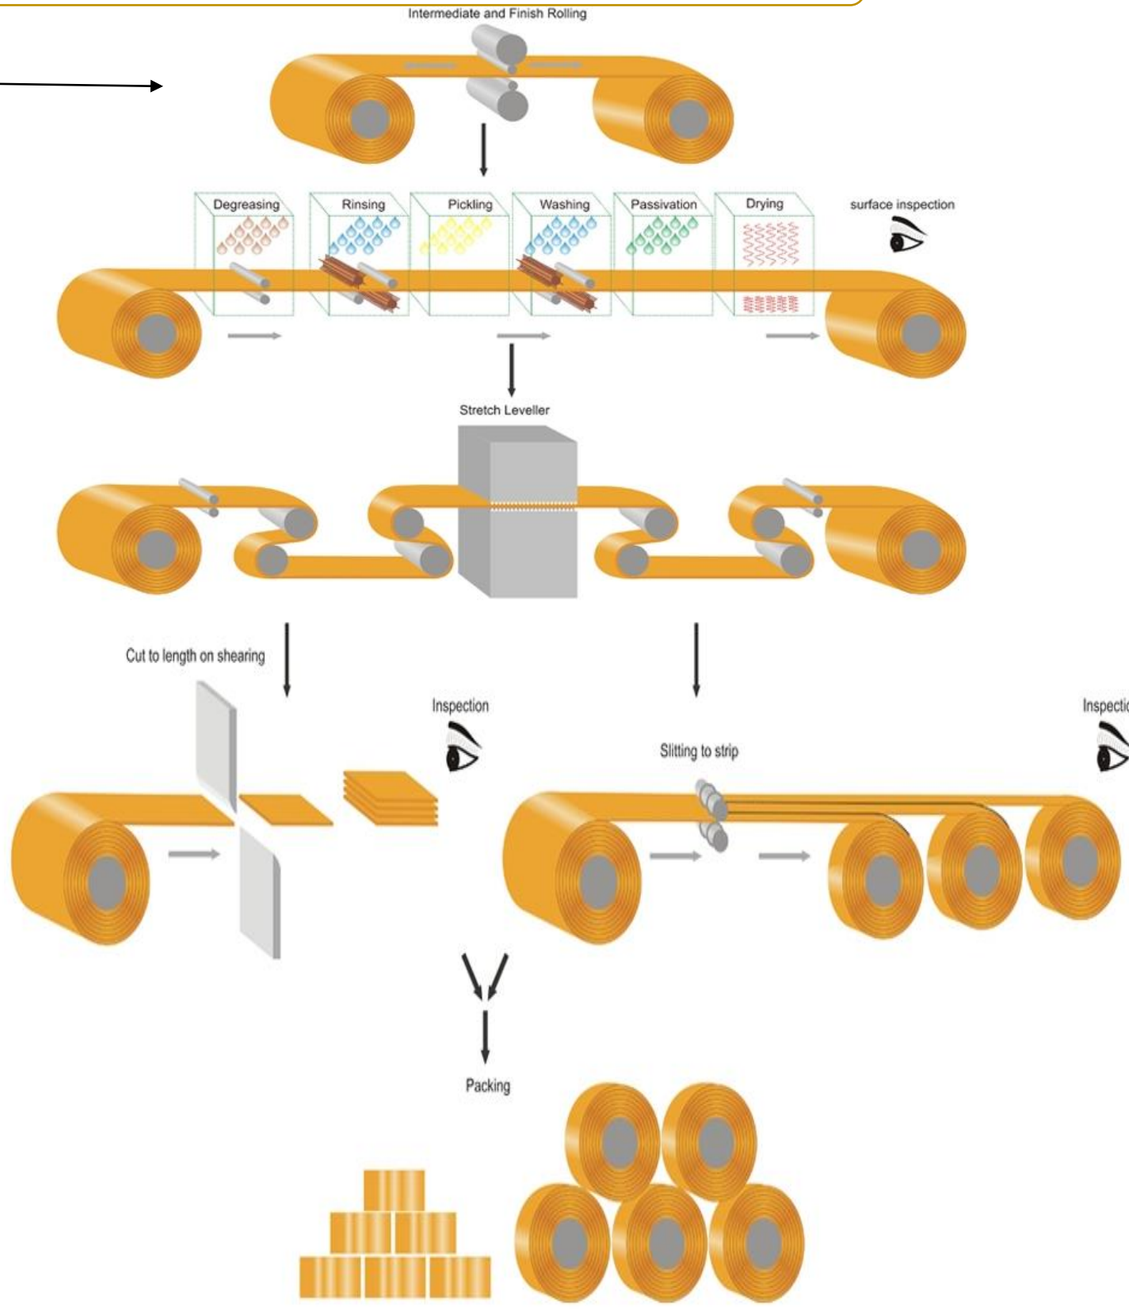
ENVIORNMENT FRIENDLY PLANT

AUTOMATED ULTRA MODERN PLANT

* PROPOSED MACHINERY

PROCESS FOR MANUFACTURING STRIPS





Alloys

Alloy	Code	Thik. Range	Use
ETP Copper	CuETP	2-0.04mm	Electrical conductors, Bus Bars, Earthing strips
DHP Copper	Cu DHP	2-0.04mm	Gaskets, Domestic Applications, Air Conditioning systems
Brass 95/5	CuZn5	2-0.04mm	Electrical and Electronic Components.
Brass 90/10	CuZn10	2-0.04mm	Electrical and Electronic Components., Ammunitions
Brass 85/15	CuZn15	2-0.04mm	Architectural, Electrical conduit, Dials, Costume jewelry, Heat Exchangers
Brass 70/30	CuZn30	2-0.04mm	Ammunitions, Terminals, wiring Harness, Connectors.
Brass 65/35	CuZn35	2-0.04mm	Lamp Caps, Switches, Eye-lets, Wiring Harness.

AT RCI

"WE TAKE PRIDE IN OUR WORK"

RCI Industries places great emphasis on delivery of high quality products to its customers. All products manufactured pass stringent quality testing procedures, a standard inspection and testing plan is followed on all jobs.

Quality Assurance

Quality is a continuous process at RCI - where wide action is taken to increase effectiveness and efficiency of the engineering process. This means that we continuously concentrate on improving our own performance to ensure that you - the client benefit. Our aim is to meet your expectations every time. We take a proactive stance towards quality moving beyond Quality Control to provide Quality Assurance, so that you can be confident that your requirements will be met with predictable quality - consistently. Our stringent process ensures that high quality standards are reflected as results in your business, guaranteeing your satisfaction every time.

Quality Control

QC inspection starts with checking of raw materials for compliance with specifications. The product is inspected at all stages of manufacturing for defect free surface quality and dimensional tolerances.

Quality Planning

We are committed to process adherence through process improvement plans. This includes allocating human resources and other facilities for products quality improvement plans which results in implementing good practices and maintaining high standards at every stage.

Control of Non-conformances

This involves identifying non-conformance, performing detailed analysis and subsequent solution of any non-conformances. Corrective action is triggered through corrective and preventive action plans. The effectiveness of all such plans are closely monitored, Customers complaints are recorded and detailed analysis is carried out. Corrective action is implemented with a view towards continual improvement.

THANKS!
